SENATE BILL

No. 1076

Introduced by Senator Emmerson

February 14, 2012

An act to add and repeal Section 38568 of the Health and Safety Code, relating to air pollution.

LEGISLATIVE COUNSEL'S DIGEST

SB 1076, as amended, Emmerson. California Global Warming Solutions Act of 2006: tire inflation regulation.

The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The state board is required to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020, and to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions. A violation of a regulation adopted by the state board pursuant to the act is subject to specified civil and criminal penalties. Pursuant to the act, the state board adopted a regulation requiring automobile service providers, by September 1, 2010, among other things, to check and inflate vehicle tires to the recommended pressure rating when performing automobile maintenance or repair services.

This bill would, until January 1, 2018, specify certain requirements that apply to a regulation that requires, as does the regulation described

above, an automotive service provider to check and inflate a vehicle's tires while performing automotive maintenance or repair service. This bill would impose an accuracy standard on a tire pressure gauge used by a provider pursuant to that regulation. This bill would declare the intent of the Legislature to establish the exclusive and exhaustive set of tire safety related exemptions to that regulation. This bill would list those exemptions, as specified.

~~This bill, until January 1, 2018, would require a tire pressure gauge used to meet the requirements of this regulation to be accurate within a range of plus or minus 2 pounds per square inch of pressure (2 psi).~~

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:
